

CONDUCT ARTICULATED HAUL TRUCK OPERATIONS RIIMPO337D
CONDUCT RIGID HAUL TRUCK OPERATIONS RIIMPO338D

COURSE OUTLINE

The nationally accredited Haul/Dump truck course is designed for conducting haul truck operations in the resources and infrastructure industries. Haul trucks covered in this course are off-highway trucks and may include: diesel-mechanical/electric.

This course is appropriate for those working in mobile plant operator roles, at worksites within:

- Civil construction
- Coal and Metalliferous mining and Extractive industries

ENTRY REQUIREMENTS

Basic verbal and written English communication skills sufficient to read material and understand instruction. Where necessary theory assessment can be answered verbally.

HOW LONG WILL TRAINING TAKE?

Typically the training and assessment is competency-based. Generally the full course can be completed in a few full days. **Please Note**-Total time is dependent on competency of each individual.

HOW IS THE TRAINING DELIVERED?

Training and assessment is both practical and theory based and delivery can be selected by the learner as either log book or full course.

LOG BOOK TRAINING—Designed for those learners whom wish to complete the 40 hours of practical training on the job or at their current employment with a competent supervisor.

Step 1-Completion of theory training and machine familiarization. Learner is then placed on a training plan with their supervisor.

Step 2- Learner completes approx. 40hrs of supervised operation by a competent operator.

Step 3- Learner books and completes a final theory and practical based assessment and is issued a statement of attainment and a trained operator card.

FULL COURSE TRAINING- Designed for learners who don't have access to the equipment or a competent supervisor.

Step 1-Completion of theory training and machine familiarization. Learner is then placed on a training plan with the trainer.

Step 2- Learner completes approx. 40hrs of supervised operation practicing skills and operation process as instructed by the trainer in a structured learning environment in a small group.

Step 3- Learner completes a final theory and practical based assessment and is issued paperwork.

VERIFICATION OF COMPETENCY (VOC) assessments for all machinery types can be completed onsite or at our training facility. For more information on VOC assessments contact the office.

SITE AUTHORISATION RPL Turn your mine site supervisor authorisations into civil or mine recognised qualifications for use in other employment. Contact the office for further information.

YOU WILL LEARN TO:

- Plan and prepare and conduct machine pre-operational checks
- Operate and relocate a haul truck
- Conduct post-operational checks and clean up
